

COX NEWS

November 2024

We have now been in the US for over a month and are very grateful to the Lord that He has made it possible for us to spend quality time with many of you and we plan, and are looking forward to, visiting many more of you before going back to Brazil!!! It has been great and a real privilege investing in these relationships, praying together and hearing what the Lord is doing in your lives!

Technology has been a blessing in keeping us connected with our ministry in Brazil, when it works!

I was able to buy a used bike and have been able to continue my "nature adventures"! (Some of them with friends!)

We enjoyed a fun day at the shore!
